President Beatty Wanted To Lease the C.N. Railway System for a Long Term

MONTREAL, Nov. 1.—A Toronto paper Tuesday prints a dispatch from its Ottawa correspondent, which says in part: "Plans put forward by E. W. Beatty, C.C., president of the Canadian Pacific Railway, and Gerard Ruel, K.C., former legal vice-president of the Canadian National Railways, for the solution of Canada's vexed railway situation were rejected by the recent royal commission on transportation in order that the scheme suggested by Sir Henry Thornton, former C. N. R. president, might be adopted in its substantial outline.

"This is the interesting fact disclosed by the evidence of the royal commission, which has been deposited in the parliamentary library.

"The evidence, which is voluminous, makes a sensational angle to it as any is the statement of Sir Beatty, after years of association with the Canadian National system, that he does not believe in public ownership.

"My experience of public ownership of railways has been that it means government ownership," he told the commissioners.

"You mean political ownership," Sir Joseph Flavelle asked him. "Yes," Mr. Ruel replied.

"The plan of President Beatty of the C. P. R. for the solution of the country's transportation difficulties, as revealed by the evidence, was for the government to lease the C.N.R. to the C.P.R. for a long term, or else in perpetuity.

"Mr. Beatty estimated that the C.P.R. management of the systems would result in economies totaling \$50,000,000 annually."

"Mr. Ruel's proposal was virtually temporary amalgamation.

"The Grande Prairie Board of Trade and the various locals of the United Farmers of Alberta are requesting the government for a subvention, to place this district in no way inferior to other districts which are concerned on a par with Edmonton. In view of the many promises of a Coast Outlet, which have not yet been implemented, it is felt that this would be a temporary compensatory measure until the road is built. This request has the whole-hearted endorsement of the Edmonton Board of Trade.

"It is known here that when Sir Henry Thornton was president of the C.N.R. he offered to the C.P.R. running rights over the Canadian National from Edmonton to Kamloops in order that the difference between the two companies regarding the route for the proposed Coast Outlet might be composed. The terms of the offer are not known, but it was not accepted by the C.P.R. Perhaps in view of government action on the Duff report the attitude of the C.P.R. might now be changed.

"This district is closer to the Pacific Coast than any other in the province of Alberta, and it is felt that with business stagnant, unemployment high, and the fact that the difference between the two companies regarding the route for the proposed Coast Outlet might be composed. The terms of the offer are not known, but it was not accepted by the C.P.R. Perhaps in view of government action on the Duff report the attitude of the C.P.R. might now be changed.

Hoover Failed to Carry His State-Democrats in Control Of Both Congress and Senate

EDMONTON, Alta., Nov. 9.—In a landslide which threatens to break all records when the final returns are in Franklin Delano Roosevelt, Democratic candidate for president, carried his party to office in almost every section of the United States.

Latest figures show that he will have at least 472 electoral votes against 59 for President Hoover. Only 266 electoral college votes are necessary to elect.

At the present time: Hoover 20, Roosevelt 453. There are 58 in doubt.

The Democrats captured both houses of Congress and piled up victories in state elections, even in Republican strongholds.

As the end of the year drew near, the Democrats were in a position to carry the state of New York, where they had 150,000 lead in the state, and complete figures from Connecticut, where New Hampshire's vote, but 6,000 and 2,500 margin, respectively.

Only three more governor candidates of that party held leads on incomplete returns.

Mr. Hoover's home state, traditionally Republican, Roosevelt led by more than 100,000 votes. In the six states in the South for his cause, however, he had but 150,000 lead in Pennsylvania, and complete figures from Connecticut, where New Hampshire's vote, but 6,000 and 2,500 margin, respectively.

HOSPITALITY

When a whole household must be disrupted several times a year in order that social affairs may take place, the spirit of entertaining is just.

When it is necessary to make nearly everyone in a home uncomfortable in order that outsiders may be afforded pleasure, then entertaining is merely a social debt-paying undertaking.

Too often the inviting of friends to one's home is merely a formal custom which is followed to keep the hostess quiet in her debt.

There is not enough entertaining because of a genuine desire to have one's friends in the home.

In nearly every large gathering there is a large proportion of those present who cannot be considered as friends.

When one has merely true-blue friends it is not necessary to turn the whole household inside out and interfere with the routine to entertain them.

Naturally the hostess will desire to show off her best linen and tablecloths, but that cannot be considered unusual in the way of preparation for a dinner.

But when lavish efforts are made requiring expenditures way out of proportion to what can be afforded, then entertaining loses its true purpose.

True hospitality means pleasure to an upbeath.

ONE CENT DROP IN WHEAT PRICE MEANS \$1,500,000,000.00 LOSS

As wheat prices go down, the producers of Western Canada lose four million dollars for each cent of drop, and the country buying power based on that, according to George W. Allan, M.C., of Winnipeg, chairman of the Canadian committee of the Hudson's Bay Company, and associated with a number of leading enterprises, who is on the coast on one of his regular visits.

The whole of this loss, Mr. Allan said, was borne by the farmer. The charges of the elevator companies and the railways remain constant, no matter what the price of wheat is. The big crop of 400,000,000 bushels may change have taken place in the land of the Canamers and Papes.

The most remarkable of these changes, to the looker-on, has been the climb to power of Mussolini. His word is law in every corner of the country. He is hated by many, feared by many, adored by many, but obeyed by all. Fascists claim that it is due to his built-up economic structure of Italy to a position it has not enjoyed for decades.

LIFE IS DEDICATED TO COMPLETE WAR MEMORIAL

A five-year task of illuminating the Book of Remembrance which will contain the names of the 68,000 Canadian soldiers who died in the war, began August 1914 until the disbandment of the Canadian Expeditionary Force in 1922 is the life work of Wm. Purvis, who exhibited a rough sampler of the work.

The completed work will be placed in a specially-built vault the Parliament Memorial Tower in the Parliament Buildings at Ottawa.

"The work I am now engaged on is my life-work," said Mr. Purvis when interviewed. "If I live the next five years to finish the job I shall feel that my life has not been spent in vain."
